

# Engineer-it

**The fully searchable online  
database of products, suppliers  
and manufacturers**

**The Source**  
for Critical Information and Insight™

**Engineer-it is designed specifically for industry professionals who need immediate access to engineering components, materials, equipment & services. Through access to over 6,500 manufacturers & suppliers in the UK and overseas, Engineer-it provides vital focus to your design and specifying activity.**

**Save valuable time trawling the Internet by simply searching through the Engineer-it online database to meet project requirements in a fast, smooth and easy process. Engineer-it provides you with immediate access to over 1,800,000 pages of full text, full colour catalogues, technical data sheets, handbooks, selector guides and manuals from an extensive range of suppliers, immediately at your desktop.**

Currency and accuracy of technical content make Engineer-it the most effective specifying source for all engineering professionals. Searches can be made by company name, product name, geographical location, ISO status or across all categories. By making use of Engineer-it's preferred suppliers feature you can also restrict your search to those companies that you already have a purchasing agreement with.

## Benefits at a glance:

- Powerful search facilities for rapid access to accurate supplier information
- Weekly updating providing the most up to date information at your fingertips
- Choosing your own entry level gives you the most cost effective solution for your requirements
- Immediate provision of complete suppliers detailed information so you can get in contact the best way that works for you

**Engineer-it.com is a fully searchable online database of products, suppliers and manufacturers catalogues for the engineering industry. Surveys have shown that searching across different Internet web sites can take up to 30% of an engineer's or designer's time, Engineer-it will give vital focus to your design and specifying activity - and save you hours searching!**

### Breakdown of modules and classifications available:

#### Engineering Design and Manufacturing Index

- Materials
- Electrical Components
- Process Control Components
- Power Transmission Components
- Fasteners
- Fluid Systems Components
- Machines & Tools
- Materials Handling
- Miscellaneous Products and Services

#### Electronic Engineering Index

- Passive Components
- Active Components
- Microwave, Coaxial & Audio Components
- Modular & Hybrid Circuits
- Electro-mechanical Components
- Production Equipment, Materials & Small Transmission Components
- Test & Measuring Equipment
- Power Sources
- Miscellaneous Equipment & Services

#### Process Engineering Index

- Diffusional Unit Operations
- Multiphase Mixing & Separation Operations
- Heat Generating & Transfer Operations
- Fluids & Solids Handling Operations
- Plant Designers, Contractors & Consultants

- Rotating Equipment - Pumps, Fans & Compressors
- Ancillary Products - Seals, Packing & Gaskets
- Valves & Control Devices
- Process Plant Fabrication & Building Services
- Utility & Maintenance Plant & Services
- Process Control Instruments
- Analytical Instruments

### Each module consists of two subscription levels of user access:

#### Gold Service

- Complete access to all company details and full-text data sheets within your selected subscription module
- Searches and selection by product, trade name, manufacturer or supplier, quality accreditation or geographical location
- Precise identification of the item you seek with a choice of more than 67,000 search terms
- Subscriptions for the full Engineer-it Gold Service are carefully customised to suit customers' exact requirements
- Full installation, training and technical support available.

#### Silver Service

- Access to all company details and full-text data sheets for companies representative of the main product categories in the selected engineering modules (Engineering Design & Manufacturing, Process or Electronics)
- Access to full company details for all remaining companies in the module
- Searches and selection by product, trade name, manufacturer or supplier, quality accreditation or geographic location
- Precise identification of the item you seek with a choice of more than 67,000 search terms
- Full installation, training and technical support available.
