

# CatalogXpress®

**The Source**  
for Critical Information and Insight™

## Streamlining Parts Research and Supplier Management

**CatalogXpress delivers the world's most valuable and comprehensive collection of manufacturers' catalogs to your desktop with speed, accuracy, and reliability. Quickly locate product and component information by keywords, brand names, part or model numbers, industry standards, manufacturer names and more. With CatalogXpress, you can also electronically manage of all your suppliers' product information through one source.**

### Manage Your Vendor Information and Parts Research with CatalogXpress

#### Reduce Costly Research Time

Using the CatalogXpress powerful and intelligent search engine, find supplier and part information quickly by connecting to the precise manufacturer's catalog page. Reduce research time by as much as 60% by locating government and commercial product and component information using keywords, brand names, part or model numbers, standards, National Stock Numbers (NSNs), MilSpecs and manufacturer's name.

#### Shorten Design and Development Cycles

Eliminate costly delays with immediate access to over

16,000 manufacturers from a single source. You will no longer need to manage multiple catalogs, manufacturers' websites or other parts research sources.

#### Locate Reliable and Current Manufacturer Information

To ensure you are working with the most accurate and up-to-date information available, CatalogXpress updates its suppliers' information daily.

#### Minimize Plant Downtime

Search by a specific part number and link to that manufacturer's information directly with CatalogXpress, avoiding plant downtime resulting from tedious parts research. Easily find alternate parts for replacement.

#### Improve Productivity

Calling various manufacturers, searching multiple web sites and browsing numerous catalogs can hinder your productivity. With CatalogXpress, the information you need on equipment, suppliers and over 100 million parts is just a click away!

#### Improve Procurement Efficiencies

Leverage volume discounts and avoid duplicating efforts when everyone in your organization shares parts information from one reliable, easy-to-use source.

- A link to the IHS Universal Parts Center™ with information on over 100 million parts
- More than 400,000 manufacturer listings from the Harris InfoSource® database
- A link to NSN information from the U.S. Federal Supply Catalog
- An optional feature for managing preferred suppliers' catalogs

## Time-Saving Search Features

### Full-Text Searching

CatalogXpress features full-text, natural language searching, quickly linking you to more precise results. The IHS Thesaurus—compiled from over 40 years of experience—adds “intelligence” to your searches by cross-referencing “like terms.” For instance, a search on “Fuse Panels” also retrieves “Fuse Bays.”

### Part Number Searching

Only CatalogXpress can take you directly to an exact catalog page from the manufacturer's part number. You can also find products and manufacturers that meet a military or commercial specification just by searching on the document number.

### Industry Filtering

Eliminate unrelated results and focus your searches to catalogs and manufacturers specific to your industry using the product's category filter.
