

Specify-it

The fully searchable online database of products, suppliers and manufacturers

The Source
for Critical Information and Insight™

Designed specifically for construction industry professionals who need access to construction component and equipment information suppliers. Specify-it provides vital focus to your design and specifying activity through access to reliable and up to date supplier information from a single source.

You don't have to spend time trawling the Internet, simply search through the Specify-it online database to meet project requirements in an effective, quick and easy process. This service provides you with instant access to full-text, full-colour catalogues, data sheets, selector guides and brochures from an extensive range of suppliers, covering the UK and overseas suppliers with recognised UK agents.

Specify-it is a fully searchable online database of products, suppliers and manufacturers catalogues for the construction industry. The service allows users to search for and identify products and suppliers to meet their exact project requirements, providing immediate access to over 850,000 full-text catalogue pages from an exhaustive range of manufacturers supported by 32,000 CAD drawings from over 80 leading manufacturers. Specify-it, keeping you up-to-date with newly added and updated companies, personalised preferred suppliers and a list of companies previously viewed.
